

SLAVS DECIDE ON GUERRILLA WAR UPON HUN

Workmen and Peasants Plan to Defy Forced Peace

TREATY IS HELD "SCRAP OF PAPER"

Resolve Not to End Struggle Until Conquered Land Is Free

HUNGER FIGHTS FOE

Petrograd Afame With Enthusiasm for New Holy Battle Against Teutons

BERLIN (via London), March 4.—Formal announcement of the cessation of military operations in "Great Russia," consequent on the signing of peace, was made by the German War Office today.

VIENNA (via London), March 4.—"Our operations in Podolia are progressing successfully," the War Office stated.

"At present our booty includes more than 1100 machine guns, besides a huge amount of war material."

Podolia is a province in southwestern Russia, bounded on the north by Volhynia and on the east by Kiev.

WASHINGTON, March 4.—The Russians are blowing up bridges on the Siberian Railway near Chica, according to a rumor forwarded to the State Department today by Chairman Stevens, of the American Railway Commission to Russia, now at Yokohama.

By JOSEPH SHAPLEN (Continued from Page 1) PETROGRAD, March 3 (morning).—"Even with peace signed at Brest-Litovsk the war will continue," Agriculture Commissary Kaleyeff told the United Press today.

Berlin last night announced that with the signing of the peace treaty at Brest-Litovsk, the advance of the German armies in Russia had been halted.

"The sporadic, revolutionary war, already begun throughout Russia, will not end. The country is unable to conduct a real war, but a partisan life-or-death guerrilla struggle is possible against the German Junkers and White Guards. It will be a civil and class war, similar to that in Finland."

"I am convinced the German army, as such, will not participate. Only the German counter-revolutionists and White Guards are now fighting. We can handle them."

HUNGER FOE OF KAISER. The province occupied by the Germans are breadless. The Germans must feed the Russian population in occupied territory as well as its own army.

"If the Germans occupy Petrograd they must feed 3,000,000 inhabitants. They'll need bread—and won't get it. This is equally true of Ukraine. Therefore military victories will simply tighten the noose around the German imperialists' neck. The more starving territories they occupy, the worse will be their own economic situation."

"If the Germans destroy the Soviet revolutionary Government they must conquer the workers and peasants of all Russia. They can't do this."

CAN'T REALIZE PEACE. Therefore peace cannot be realized. The civil war against the ruling classes will be continued.

"We do not need highly technical war."

THE WEATHER

FORECAST For Philadelphia and vicinity: Cloudy with scattered tonight and tomorrow; with probably rain; steadily rising temperature; with lowest to night about 35 degrees; moderate southerly winds.

LENGTH OF DAY Sun rises 6:30 a.m.; sets 6:54 p.m. DELAWARE RIVER TIDE CHANGES CHESTNUT STREET Low water, 12:34 a.m.; low water, 1:25 a.m. High water, 6:15 a.m. TEMPERATURE AT EACH HOUR

A full page of photographs of the BRISTOL SHIPYARD taken by permission of the United States Shipping Board and approved by Rear Admiral Bowles, will appear TOMORROW with a descriptive story of Bristol Results in the Evening Public Ledger

WILSON ROUNDS OUT FIFTH YEAR IN WHITE HOUSE

Anniversary Finds President Hard at Work on Perplexing War Problems

WASHINGTON, March 4.—President Wilson, at noon today, rounded out his fifth year as the nation's executive and the eleventh month of his leadership in the world's war.

The day found him engaged with some of the most perplexing problems that have faced the nation. It found the country passing through the darkest hours of its war with Germany.

Under the weight of his executive burden the President's hair has turned very gray during the last year. But his health is excellent, his capacity for work undiminished and his appreciation of fun and entertainment continues to keep him in a frame of mind to appreciate the serious, sublime and ridiculous in a war-torn world.

Under the weight of his executive burden the President's hair has turned very gray during the last year. But his health is excellent, his capacity for work undiminished and his appreciation of fun and entertainment continues to keep him in a frame of mind to appreciate the serious, sublime and ridiculous in a war-torn world.

ATHLETIC PROWESS HER QUALIFICATION FOR TOGA

Miss Anne Martin, of Nevada, Recites Deeds to Win Support for Senate

WASHINGTON, March 4.—Announcing her candidacy for Senator from Nevada, Miss Anne Martin, suffragist, declared her platform would be "frankly" to win the support of the man in the street and the woman in the home."

Her qualifications, as she stated them, were unique: "I held Nevada tennis championship three years.

"I won golf medals in England. "Arrested for picketing White House and was pardoned by the President."

"Climbed Mount Whitney, next to highest mountain in America. "Has a Nevada mountain pass named after her."

"Fought for woman's suffrage and women's eight-hour law in Nevada."

"Miss Anne Martin, who has sold or bought votes at elections of Federal officers. It is a State or local power. It was held."

The decision sustains a denunciation of lower courts and means that ninety-nine dead men in Nevada, who died January 25, 1917, need not stand trial.

UNLICENSED AIRCRAFT ORDERED SHOT DOWN

President Directs Destruction of Those Flying Over or Near Government Property

WASHINGTON, March 4.—President Wilson this afternoon issued a Presidential Requisition requiring any aircraft flying over or near any Government property or military stations to be licensed.

Unlicensed aircraft flying in forbidden territory are to be shot down or near any Government property or military stations to be licensed.

"The proclamation also provides: "Slackers' Last Chance. All Delinquents in City Will Be Rounded Up After Tomorrow"

This is the second day of grace for draft "slackers," who will be rounded up in a big draft roundup on Wednesday.

The three-day period for unclassified men of draft age to report to their respective draft boards expires tomorrow at midnight, after which the city will be searched in a big draft roundup for men who have evaded the draft.

Unlicensed aircraft flying in forbidden territory are to be shot down or near any Government property or military stations to be licensed.

BRITISH RAIDERS PIERCE HUN LINES

Haig Reports Fast Increasing Activity on Wide Front in West

LONDON, March 4.—Astride of the western front, leading from Jerusalem to Nablus, General Allenby's forces advanced a maximum depth northward of 2000 yards on a twelve-mile front, Saturday and Sunday. It was officially announced today. The enemy offered little opposition.

HEAVY LOSSES INFLICTED

Counter-Forays Repulsed as Hindenburg Feels Out Allied Strength

LONDON, March 4.—British forces conducted several successful raids on a wide front last night, in a continuation of the increasing activity. Field Marshal Haig reported today. In several instances the attacking party found the German trenches deserted.

"Australian troops entered the German trenches at Warrenton, after killing at least fifty of the enemy," the report said. "They destroyed dugouts and took many prisoners and a machine gun. The Australians also conducted successful raids in the neighborhood of Tanager and south of Holsbeke, taking prisoners and a machine gun."

"North of Trencherendale, Middlesex troops captured several prisoners. "South of St. Quentin we repulsed an enemy attack and took a few prisoners. Our casualties everywhere were light. At several points our troops entered the German lines, only to find the garrisons withdrawn."

"Shortly before dawn the enemy's artillery displayed considerable activity near Lens."

Events are speeding up all along the front. Following artillery, quartermen, sniping machine guns, jostling patrols and wild sniping raffles, having all increased their activity in the last forty-eight hours."

Field Marshal Hindenburg is probing and testing everywhere, losing heavily in each raid. Apparently he is untroubled by the loss of fifty or sixty men if the remainder fetch back one or two samples of British troops opposite. The Germans are imitating the British methods of raiding. But they lack the latter's dash and cunning. The first requisition of raiders."

"An instance of a raid against the Australians in Flanders, 200 Germans and nine officers advanced frequently for many days. Yet they left twenty-one dead on the British wires, including the commander, and also lost some prisoners. In a raid in the Polygon Wood region five Germans reached the British line. Three of these were killed and two taken prisoner."

A ferocious wind has blown away the snowstorm and a thaw has succeeded it. The weather is raw and penetrating."

BAKER REPORTS WAR MOMENTUM GROWING

WASHINGTON, March 4.—The momentum of battle is increasing in the West."

This is made emphatically plain in Secretary of War Baker's review made public today. It makes it very plain to the British people that relative quiescence on the western front has come to a close. Here are a few of the salient utterances:

"During three months both belligerents have been killing and maiming."

"The weather is raw and penetrating."

SINGER LOSES HER VOICE

Soprano Sees Woman Dash Herself From Window of Six-Story House

SYRACUSE, N. Y., March 4.—As the result of a shock from seeing a woman in an adjoining apartment in New York dash herself to death from a sixth-story window, soprano, who has lost her voice, it became known here today from friends of the well-known singer.

"The shock to her nervous system was so great that for a time it was feared she would lose her voice, she is undergoing treatment by which she hopes to regain her voice."

HUNT FOR SHORT-WEIGHT MERCHANTS

HERKIMMER, N. Y., March 4.—General Starny, county weights and measures, has issued an appeal to the public to report any short-weight merchant. He promises to make an investigation and prosecute violators of the law.

"WE ARE IN THIS THING TO WIN AND WILL," SAYS GEN. MARCH

New Chief of General Staff, Assuming Duties, Is Sure of Victory—Lauds Spirit of Sammees and Allies

WASHINGTON, March 4.—"We are in this thing and we are going to win. In saying that I do not underestimate the strength of the German military machine. It is powerful, powerful. Notwithstanding that fact, we are going to win."

This was the big, outstanding, confident declaration made today by Major General March, the new chief of general staff. He formally assumed command of the office as successor to General Tasker. General March said he would be on duty with the army in the next few days and took a few minutes from his series of conferences to pay tribute to the American soldier and his Allied comrades.

ALLENBY PUSHES ON NORTH OF JERUSALEM

British Gain 3000 Yards on Twelve-Mile Front in Direction of Nablus

LONDON, March 4.—Astride of the western front, leading from Jerusalem to Nablus, General Allenby's forces advanced a maximum depth northward of 2000 yards on a twelve-mile front, Saturday and Sunday. It was officially announced today. The enemy offered little opposition.

HUNS DAMAGE BRIDGE OF SIGNS, DOGES' PALACE

Air Raiders Wreck Priceless Monuments of Italian Art in City of Venice

ROME, March 4.—The Duca (Duke) Palazzo, the Bridge of Sighs, the Church of St. John and Paul and the Church of St. Simon, as well as other treasures of Venice were badly damaged in the bombing raid which took place in the city February 25. Fifty heavy airplanes took part in the raid, dropping 500 bombs. The total damage to the city was estimated at 100 million lire.

The raiding airplanes made three or five passes over the martyred city, dropping with deadly accuracy fifteen bombs against the Duca Palazzo, ten bombs on the Bridge of Sighs, and one on the Church of St. John and Paul and upon the Church of St. Simon. The damage to the last structure, which is on the Grand Canal, was very great, one of its marble columns being thrown down.

There were also several bombs, and it is considered remarkable that damage to priceless monuments in the city was not more serious. The total damage to the city was estimated at 100 million lire.

NEUTRALS UNEASY OVER RUMANIAN OIL RUMOR

Report That German Government Will Seize Wells Brings Threat of Economic War

AMSTERDAM, via London, March 4.—There is great uneasiness in neutral circles over reports that Germany intends to seize the Rumanian oil wells and lead them to German hands.

The Rumanian Government has warned that should Germany take such action it would lead to a general economic war between the belligerents.

BOMB IN JUNK KILLS TWO

Explosive Concealed in Shipment to Steel Mills at Forth Worth

PORT WORTH, Tex., March 4.—Two workmen were killed and one injured here today when a bomb shipped to the George W. Armstrong Company steel mill exploded.

The bomb consisted of a small gas pipe filled with explosives and came in a load of junk.

FORBIDS PRICE-FIXING BY MANUFACTURERS

Supreme Court Makes Sweeping Decision Against Graphophone Company

WASHINGTON, March 4.—A sweeping decision against the legality of price maintenance systems by manufacturers was handed down today by the Supreme Court. Justice Holmes and Brandegee dissented.

"This case, that of the American Graphophone Company, the graphophone company, attempted to maintain the price of its products, machines, records, etc. The lower courts, in certifying the case up to the high court, submitted two questions:

"1. Can a plan be devised under general law by which the price of the product can be maintained by the manufacturer, and

"2. Can a plan be devised under general law by which the price can be maintained by the manufacturer, and

The answer to both questions the Supreme Court decided was no.

REMOVE U. S. EMBASSY TO VLADIVOSTOK, PLAN

Ambassador Francis Going There, While Japanese Ambassador May Go to Irkutsk

Tokio, March 4.—David R. Francis, American Ambassador to Russia, will move the American embassy to Vladivostok, according to a dispatch from that city to the Jiji Shinhwa, received today.

The dispatch quotes a radio received from Viscount Uchida, Japanese Ambassador to Russia, stating that the Japanese embassy will be moved to Irkutsk or Harbin.

NORTHERN PACIFIC LOSSES

WASHINGTON, March 4.—The Northern Pacific Railroad lost its appeal to the Supreme Court today from the decision of the lower courts, which gave the Federal Government title to an Indian reservation in the State of Washington.

ICE PROBLEM LOOMS BEFORE CITY AND STATE

Question of Adequate Supply, Due to War, Concerns Public Health

NEW YORK ACTED PROMPTLY, WHILE THIS STATE HAS DONE LITTLE OR NOTHING

By SAMUEL MCCOY

Scores of babies died during the hot weather last summer for no other reason than that their mothers could not get ice. The ice shortage during the summer of 1917 was a dire one. It was a dire one. It was a dire one.

Before the hot weather comes again, by July, there will be 200,000 babies in Philadelphia who are less than three months old. One out of every thirty in a great extent to the during the hot weather even with normal supplies of ice.

Now about the supply of ice for next summer. Will only 700,000 tons be made this year? Or will there be 1,000,000 tons? Or will there be 1,000,000 tons? Or will there be 1,000,000 tons?

If there is going to be less ice than usual this summer, 200,000 young mothers will be in a state of panic. They will want to know why. They will want to know why. They will want to know why.

It is a question of public health. It is a question of public health. It is a question of public health.

It is a question of public health. It is a question of public health. It is a question of public health.

It is a question of public health. It is a question of public health. It is a question of public health.

It is a question of public health. It is a question of public health. It is a question of public health.

It is a question of public health. It is a question of public health. It is a question of public health.

AMMONIA FOR MUNITIONS

First, the United States Government has warned the manufacturers of artificial ice, all over the world, that a great deal of ice ammunition will be used for manufacturing ice must now be used for making ammunition. American soldiers in France will be slaughtered by the Germans if they have any ammunition with which to fight back. There is no choice in that matter.

The manufacturers of ice in all parts of the world are being warned for the last three months that they must be ready to supply natural ice to their customers in place of artificial ice. In this country, almost every pound of ice sold is artificial ice, manufactured with ammonia.

When Morris Schiff presented an application for a wholesale license to sell artificial ice, the commission informed that Schiff had a license to sell natural ice, but that he had been refused a renewal last year, as he was not a good business man. Schiff explained that the change grew out of a mistake made by an official of the commission. Mr. Schiff was away from home and notified his secretary to write for him. Mr. Schiff's secretary wrote for him. Mr. Schiff's secretary wrote for him.

Samuel Cohen, 521 South Street, desired to take in a partner named Grad, but Judge Weasel recognized Grad as having been in the city for some time in the liquor business with a man named Gill, who had committed a number of forgeries and had absconded. Counsel for Grad, before Judge Weasel, explained that the change grew out of a mistake made by an official of the commission. Mr. Schiff was away from home and notified his secretary to write for him. Mr. Schiff's secretary wrote for him.

U. S. ATTORNEY KANE REACHES UNDERSTANDING WITH CLUBS, CONDEMS "BOOTLEGGING"

United States Attorney Francis Foster Kane today said that he had come to an understanding with the various clubs of the city whereby they would not sell liquor to soldiers or sailors in or out of uniform or to any party at which a soldier or a sailor was present. This understanding was reached after Kane had spent several days in the city, where he would not sell liquor to soldiers or sailors in or out of uniform or to any party at which a soldier or a sailor was present.
